UNLIMITED PASSION

– GET READY FOR THE ADVENTURE OF YOUR LIFE!

The stunning colours, blackest black and highly finished details combined with great technical materials take your adventure to a completely new level! Founded in 2021 AMOQ is active, fast and full of excitement. The brand is inspired by a passion for snow and snow activities. Sunny frosty days in the rocky mountains, the northern lights and the call of powder snow.

Products combine comfort and style in the best possible way. Whether you're riding a snowmobile, scaling mountains, going skiing, snowboarding or just exploring the city life AMOQ keeps you looking stylish and feeling comfortable in all conditions. The versatile collection includes helmets, goggles, monosuits, jackets, pants and gloves for men and women.

High-quality products are equipped with the best technical features which you can rely on in all kinds of weather conditions. The unique price-quality ratio of the collection makes quality and fashionable products available for all. Whether you are an enthusiast or a professional, you'll find the most stylish products in the AMOQ collection, which are always in line with the hottest trends of the season. Be brave, live in the moment and prepare yourself for possibly the best day ever with your brand new AMOQ product!

MATERIAL DETAILS

ELEVENT

The ELEVENT membranes are specifically developed to beat the elements, with breathability and ventilation always a priority in combination with waterpillar. The basic ELEVENT membrane offers 10 000 mm waterpillar and 10 000 g/m² breathability. The Mid level ELEVENT membranes, 15K and 20K, offer 15 000mm and 20 000 mm waterpillars resp. 15 000g/m² and 20 000 g/m² breathability. The top level membrane ELEVENT 30K has a waterpillar of a whopping 30 000 mm, while the breathability is 20 000 g/m².

SuperFabric®

SuperFabric® technology starts with a fabric and overlays it with tiny plates ("guard plates") in a specific arrangement. The gaps between guard plates allow complete flexibility. The geometry, thickness, and size of the guard plates, as well as the fabric, can be varied depending on the desired attributes. SuperFabric® materials are designed to deliver a range of performance features such as abrasion resistance, stain resistance, quick drying, weight reduction and more.

SKIN FIT

A technology used to secure glove linings. Where used the lining will remain firmly attached and not follow your hand when removed.

INNOBORNE

The Optimal Insulation
100% OLEFIN

An insulating material capable of retaining heat longer than even wool yet is light weight, quick drying and transports moisture efficiently away from the body. Consist of 100% Olefin / Polypropylene.

NUDUD is a new innovative high precision "touchscreen solution" that allows you to keep your gloves on in all situations, both on and off your motorcycle/snowmobile. The precision is second to none. Find more information at nudud.se

HELMETS

METEOR V2 HELMET

Simple design and comfy fit.

The Meteor V2 helmet is an affordable, versatile and comfortable helmet which works great for both motocross and snowmobile riding. The nice-looking shell made of thermoplastic contributes to a low weight, but without compromising anything of the safety features. The interior is detachable and can be easily washed in a washing machine. We are truly convinced that Meteor V2 won't make you disappointed.

- > EXTREMELY AFFORDABLE
- > WEIGHT: 1300G +/- 50G
- > REALLY GOOD VENTILATION
- > BUCKLE: DOUBLE D-RINGS
- > DETACHABLE AND WASHABLE INSIDE
- > APPROVED ACCORDING TO ECE 22.06
- > SHELL MADE OF THERMOPLASTIC (ABS)

FRICTION MIPS CARBON HELMET

Time to level up your riding, with the brand new Friction MIPS helmet with Carbon Fibre shell!

The Friction helmet offers ground-breaking performance and extremely low weight combined with awesome looks and high-class comfort. The shell can be described as a masterpiece design made of high-performance carbon, with a weight of just 980g in size Medium. The ventilation channels are designed to give you perfect cooling in the summer, without getting too cold during the winter. To make sure to keep you safe in all situations, we have equipped the Friction helmet with a MIPS® Brain Protection System (BPS), which is a class-leading protection feature to avoid rotational related injuries such as concussions. Shortly described, this is probably one of the best helmets for its price for both summer and winter riding.

- > D-RING BUCKLE

VISION VENT + SNOWMOBILE GOGGLES

Take your riding to the next level with the frameless AMOQ Vision snowmobile goggles.

The vision comes with flexible and comfortable frame together with a magnetic lens technology as standard. This allows you to quickly change your lens when you are out riding and the weather changes. The Vision goggles also features a triple density foam where the inner layer is shock absorbing and the outer is moisture-wicking. To really make sure you don't get fog in your vision, the Vision goggles is equipped with a Vent+ dual lens type which allows a high airflow for maximum sight. A highly competitive goggle that have passed rough testing deeply in the Scandinavian forests with the highest degree!

MENS OUTERWEAR

VOID V2 MONOSUIT

The new updated Void V2 now comes with an outer fabric with laminated membrane and higher waterpillar than its previous version.

A perfect entry-level monosuit for both trail riding lovers and deep snow adrenaline junkies. The shell construction allows you to choose a level of warmth by yourself, by adding extra layers of clothing underneath. This makes the monosuit more usable and can be used both during those cold days and during the warmer spring riding days. The thigh-high zippers on the legs makes it easier to take your snowmobile boots on and off, as well as they also can act as ventilation zippers if opened from the top. Shortly described, probably the best product currently on the market in this price segment.

- > FIT: LOOSE
- > LAMINATED FABRIC
- > 10 000 MM WATERPILLAR
- > 10 000 G/M2 BREATHABILITY
- > THIGH HIGH ZIPPERS ALONG THE LEGS
- > D-RING FOR KILLSWITCH MADE OF METAL
- > OUTER SHELL MADE OF 300D POLYESTER
- > VENTILATION POCKETS IN ARMPITS AND INNER THIGHS

ECLIPSE V2 MONOSUIT 20K

The Eclipse V2 Monosuit is the obvious choice for the backcountry rider who sets high standards and prefers an aggressive design.

The lightweight shell construction of this monosuit is made of the 300D Nylon Canvas material. This material provides the durability required for aggressive treeriding, but without compromising the flexibility you need to be able to take your riding to the next level. In exposed areas it is equipped with reinforcement fabric. The windproof and water-repellent membrane "ELEVENT 20K" is coated to the outer fabric, which gives a very flexible feeling during both trail and backcountry riding. To maximize airflow and ensure that moisture is being ventilated, this monosuit has also been fitted with dual ventilation channels in the back area. In short, the Eclipse V2 is a really good monosuit that gives you extremely good value for your money.

- > GREAT VENTILATION
- > INTERNAL SUSPENDERS
- > NICELY PLACED REFLECTORS
- > ELEVENT 20K MEMBRANE
- > REINFORCEMENTS IN EXPOSED AREAS
- > KILL SWITCH D-RING MADE OF ALUMINIUM
- > OUTER SHELL MADE OF 300D NYLON CANVAS
- > 20 000 MM WATER COLUMN / 20 000 G/M2 BREATHABILITY
- > YKK VISLON AQUAGUARD MAIN ZIPPER

FLEX MONOSUIT

The Flex Monosuit is made to be the smoothest and most comfortable snowmobile monosuit in our range. By using a laminated outer fabric with four-way stretch, we achieve exactly this result.

This monosuit is the obvious choice for you who ride actively and don't want to let anything stand in the way of your continued development in snowmobile riding. In order to efficiently ventilate moisture, the monosuit have been equipped with ventilation zippers in the armpits and on the thighs. The knees and leg openings have been equipped with a lightweight and flexible reinforcement material that can withstand almost all imaginable stress. Since the garment is an un-insulated shell model, it gives the opportunity to dress according to the outside temperature of the day. This provides a versatile garment that can be used for a large part of the season. In short, a truly awesome monosuit for both active trail riding as well as intense backcountry riding where maximum mobility is the highest priority.

- > LAMINATED ELEVENT 15K MEMBRANE
- > 15,000 MM WATER COLUMN

ROCKET V2 MONOSUIT 30K

The brand new Rocket V2 monosuit offers more than any other competitor in the same price range. When you get this monosuit in your hand, you will feel a sense of quality beyond the ordinary, combined with a very clean design.

The monosuits' lightweight shell construction is made of the material 300D Nylon Canvas. This material provides the durability required for aggressive treeriding but without compromising the mobility you need in order to take your riding to the next level. One of the strongest reinforcement materials on the market called SuperFabric® has been used in exposed areas.

The water column in the membrane "ELEV-ENT 30K" is at an incredible level of 30,000 mm. This is coated against the outer fabric, which gives a very smooth feeling during both trail and backcountry riding. To max-

imize airflow and ensure that moisture is ventilated, the monosuit has dual ventilation zippers at the back which can be closed during the coldest days. The laser-cut breathing holes in the collar can, in addition to being a nice detail, be used in bad weather like a face mask.

In short, AMOQ Rocket is the monosuit that really gives you that "little extra".

VOID V2 JACKETS

The new updated Void V2 jacket now comes with an outer fabric with laminated membrane and higher waterpillar than its previous version.

A perfect entry-level jacket for both trail riding lovers and deep snow adrenaline junkies. The shell construction allows you to choose a level of warmth by yourself, by adding extra layers of clothing underneath. This makes the monosuit more usable and can be used both during those cold days and during the warmer spring riding days. The thigh-high zippers on the legs makes it easier to take your snowmobile boots on and off, as well as they also can act as ventilation zippers if opened from the top. Shortly described, probably the best product currently on the market in this price segment.

- > LAMINATED FABRIC

VERNAL JACKET

AMQ Vernal stands for flexibility, warmth and comfort.

All the features needed for a wonderful day on the trails. This jacket is the ultimate choice for you the rider with a calmer riding style and who are looking for a warm and comfortable snowmobile experience. The membrane with a water column of 5000 mm keeps water out, while the breathability 5000 g/m² contributes to good comfort. The smart thing about this jacket is that the inner jacket is removable and can also be worn separately. Basically you get two jackets for the price of one. Perfect!

ORBIT V2 JACKET 20K

The Orbit V2 jacket now comes in a new aggressive design, and is the obvious choice for the backcountry rider who sets high standards.

The lightweight shell construction of the jacket is made of the material 300D Nylon Canvas. This material provides the durability required for aggressive backcountry riding, but without compromising the flexibility you need to be able to take your riding to the next level. In exposed areas, the Orbit V2 jacket are provided with a reinforcement material that can withstand almost all possible abuse. The windproof and water-repellent membrane "ELEVENT 20K" is coated to the outer fabric, which gives a very flexible feeling during both trail and backcountry riding. To maximize airflow and ensure that moisture is being ventilated, this jacket has also been fitted with dual ventilation channels in the back area. In short, the Orbit jacket is basically a really good product that gives you extremely good value for your money.

FLEX JACKET

The Flex Jacket is made to be the most flexible and comfortable garment in our assortment. By using a laminated outer fabric with 4-way stretch we can get to this result.

This jacket is the obvious choice for everyone who rides actively and doesn't want to let anything stand in the way of your continued development in snowmobile riding. In order to efficiently ventilate moisture, the jacket has been equipped with ventilation zippers in the armpits. The elbows have been equipped with a lightweight reinforcement material that can withstand almost all imaginable stress. In short, a great jacket for both active trail riding as well as backcountry riding where maximum mobility is the highest priority.

ASPECT JACKET

Aspect 30K, our best snowmobile jacket to date in terms of specifications. The jacket's design has been inspired by the ski industry, with its straight and symmetrical lines.

The lightweight shell construction is made from the material 300D Nylon Canvas, which is both flexible and durable. This material provides the durability required for aggressive forest riding but without sacrificing the mobility you need to take your riding to the next level. A lightweight and flexible reinforcement material has been used on exposed areas such as the elbows. The water column in the "ELEVENT 30K" membrane is an incredible 30,000 mm. This membrane is coated against the outer fabric, which gives a very flexible feeling during both trail and freeriding. To maximize the airflow and ensure that moisture is vented out, the jacket has also been equipped with double ventilation channels in the back.

AMQQ RACING

We asked ourselves; How do we make the best possible snowcross clothing? The answer was easy.

In racing it is all about small margins, from starting line to finish line. Because of that we have been testing our gear properly together with best snowcross teams in Finland. We are of course super proud of this partnership and we can with confidence say these products really works in reality, not just in a testing facility.

RACING PIT COAT

The perfect pit coat for all occasions. Whether you need it for pure racing or to have something quick to put on when you fuel up your snowmobile in the mountain cabin, this product will work great. One of our absolute best products in the portfolio, in terms of versatility.

The brand new Rocket V2 monosuit offers more than any other competitor in the same price range. When you get this monosuit in your hand, you will feel a sense of quality beyond the ordinary, combined with a very clean design.

The monosuits' lightweight shell construction is made of the material 300D Nylon Canvas. This material provides the durability required for aggressive treeriding but without compromising the mobility you need in order to take your riding to the next level. One of the strongest reinforcement materials on the market called SuperFabric® has been used in exposed areas.

The water column in the membrane "ELEVENT 30K" is at an incredible level of 30,000 mm. This is coated against the outer fabric, which gives a very smooth feeling during both trail and backcountry riding. To maximize airflow and ensure that moisture is ventilated, the monosuit has dual ventilation zippers at the back which can be closed during the coldest days. The laser-cut breathing holes in the collar can, in addition to being a nice detail, be used in bad weather like a face mask.

In short, AMOQ Rocket is the monosuit that really gives you that "little extra".

VOID V2 W'S JACKET

The new updated Void V2 jacket now comes with an outer fabric with laminated membrane and higher waterpillar than its previous version.

A perfect entry-level jacket for both trail riding lovers and deep snow adrenaline junkies. The shell construction allows you to choose a level of warmth by yourself, by adding extra layers of clothing underneath. This makes the monosuit more usable and can be used both during those cold days and during the warmer spring riding days. The thigh-high zippers on the legs makes it easier to take your snowmobile boots on and off, as well as they also can act as ventilation zippers if opened from the top. Shortly described, probably the best product currently on the market in this price segment.

VERNAL W'S JACKET

AMOQ Vernal stands for flexibility, warmth and comfort.

All the features needed for a wonderful day on the trails. This jacket is the ultimate choice for you the rider with a calmer riding style and who are looking for a warm and comfortable snowmobile experience. The membrane with a water column of 5000 mm keeps water out, while the breathability 5000 g/m² contributes to good comfort. The smart thing about this jacket is that the inner jacket is removable and can also be worn separately. Basically you get two jackets for the price of one. Perfect!

- > STARTEX OUTER FABRIC
- > 5000 MM WATER COLUMN
- > 5000 G/M² BREATHABILITY
- > DETACHABLE INNER JACKET (200G INSULATION)
- > - "2-IN-1" (CAN BE USED BOTH INSULATED AND NOT)

ASPECT W'S JACKET

Aspect 30K, our best snowmobile jacket to date in terms of specifications. The jacket's design has been inspired by the ski industry, with its straight and symmetrical lines.

The lightweight shell construction is made from the material 300D Nylon Canvas, which is both flexible and durable. This material provides the durability required for aggressive forest riding but without sacrificing the mobility you need to take your riding to the next level. A lightweight and flexible reinforcement material has been used on exposed areas such as the elbows. The water column in the "ELEVENT 30K" membrane is an incredible 30,000 mm. This membrane is coated against the outer fabric, which gives a very flexible feeling during both trail and freeriding. To maximize the airflow and ensure that moisture is vented out, the jacket has also been equipped with double ventilation channels in the back.

COMET SHADES

AMQ Comet Shades are the sunglasses that allows you to reach your full potential as a snowmobile rider. These sunglasses ensure that you are the coolest on the mountain AND in the bar at the end of the day. The polarized lens effectively blocks strong glare and surface reflections, which protects your eyes when the sun is shining the most.

MERINO BASE LAYERS

Lighweight merino wool base layer from your favourite brand!

The 100% Merino jersey/pant from AMOQ is the perfect base layer for all your winter activities, especially those cold days. This base layer is designed to be closest to your skin from low- to high-intensity activities, such as snowmobiling in all different forms. Since merino wool naturally offers a wide range of practical features, it will keep you warm during cold days and make sure to give you maximum moisture wicking capacity during sweaty days. It is also anti-bacterial by its nature, so you don't have to wash it after every use, which makes it more eco-friendly as well as it's more practical.

- > HIGHLY MOISTURE WICKING CAPABILITIES
- > WILL KEEP YOU WARM EVEN WHEN WET
- > TRACKABLE & ETHICAL PRODUCED WOOL
- > LIGHTWEIGHT FABRIC MADE OF 100% MERINO WOOL

SNOWMOBILE SOCKS

These socks are designed with only one thing in mind; Snowmobiling.

The AMOQ snowmobile socks are made of 100% moisture-wicking polyester, that is stitched in a way which will allow moisture and sweat to get away from your feet. This stitching method allows you to keep warm from morning to evening when riding snowmobile. You have thicker material under the foot (where sweat comes from) and thinner material with more ventilation on top (where the heat goes).

NECKWARMER

Warm and comfortable neckwarmer made of moisture-wicking polyester.

Stops wind in an effective way from going into your jackets collar during the cold winter days. Besides those practical features in terms of warmth performance, this neckwarmer are also equipped with a lot of extremely beautiful AMOQ logos, which according to us makes this product to an obvious part of every snowmobile riders equipment bag.
